Doncaster Royal Infirmary	06/02/2024	Slips/trips/falls (includes faints)	Fall on uneven ground	Visitor had been to see a relative in the EWB (Ward 26) and was leaving the site from the main entrance, over the bridge and along the side of the porta cabins at the entrance to the ED carpark. Fell over onto the floor where the path was uneven and had immediate pain to the foot and ankle, had to crawl on hands and knees to get up. Unable to drive home and called for relative to collect her. Increased pain and swelling over night - attended ED at DRI the following day and investigations identified ankle fracture to affected foot.
